Multi-entity insight through dynamic dashboards

sage Intacct

The screenshot displays the Sage Intacct CFO:Daily View dashboard. At the top, there are four key financial metrics with green upward arrows and growth percentages:

- Billed Revenue: \$3,385,243 (vs. prior month: +\$234,302)
- Expenses: \$2,081,509 (vs. prior month: +\$15,597)
- Net Income: \$1,287,290 (vs. prior month: +\$209,721)
- EBITDA: \$1,287,290 (vs. prior month: +\$209,721)

Below these are sections for "What I Follow" (a feed of recent activity), "Profit and Loss - by Project", "Revenue by Service Items" (a bar chart showing Business Consulting, Technical Consulting, and Project Fee), "Employee billable utilization - US" (a table showing utilization for US team members), and "Revenue By Customer" (a table showing revenue for Intelligent Audit, Conductor, 33Across, No Customer, and All Other customers).

 - Procure to Pay Automation

USE GP TODAY?
WHY CONSIDER SAGE INTACCT?

Dimensional COA Structure

sage Intacct

Multi-Dimensional

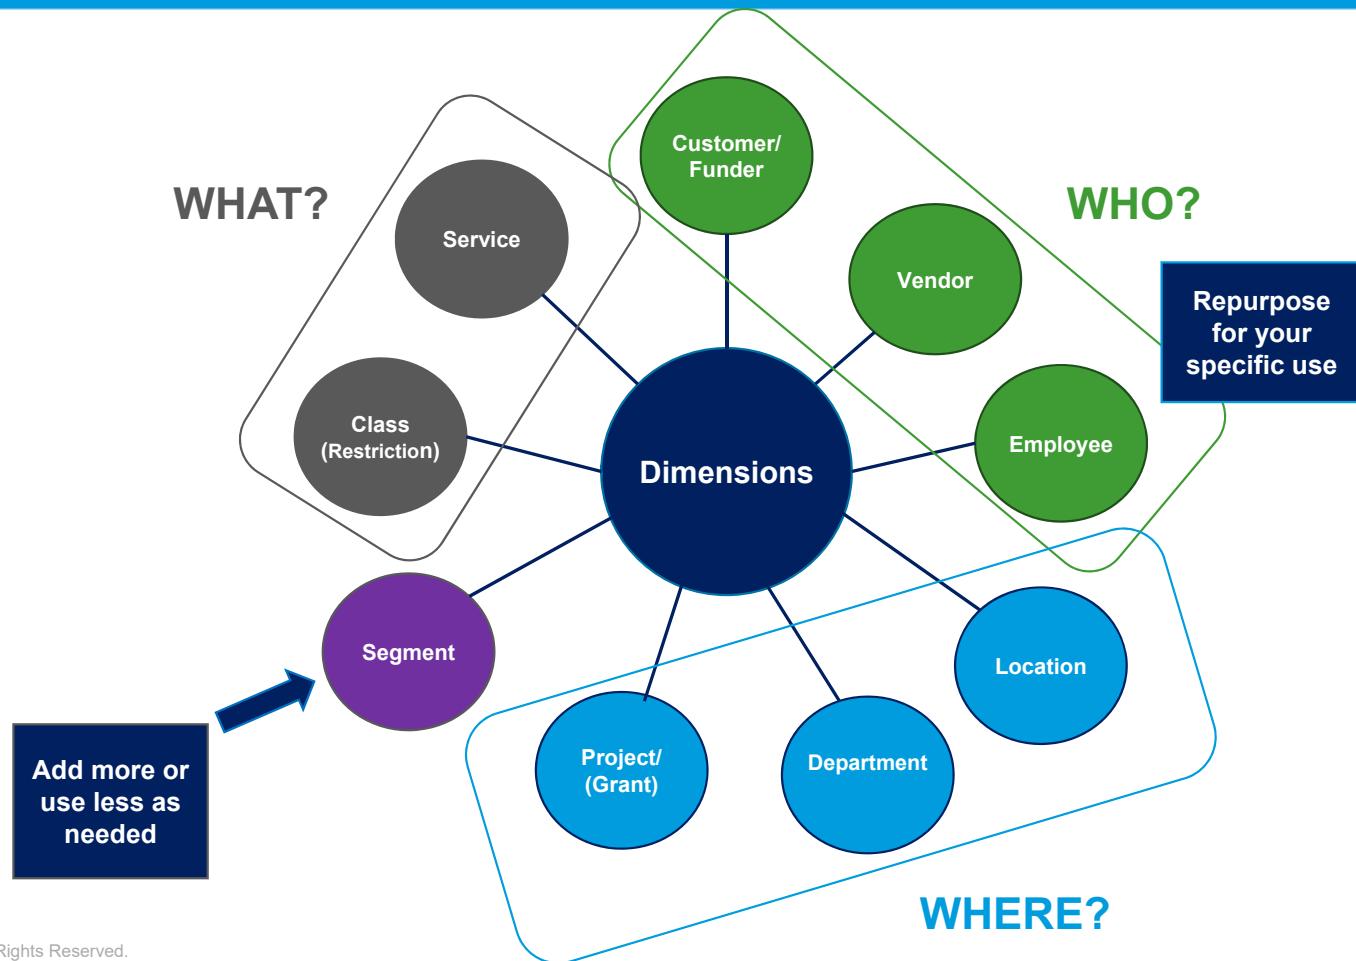

- Dimensions replace sub-accounts or segments often found in other accounting systems
- Dimensions simplify the Chart of Accounts
- Transactions are coded to one account with multiple dimensions
- Without dimensions you have a proliferation of accounts/sub accounts to handle entity or departmental reporting

~ 24 Separate GL Account Combinations

Power of Dimension

sage Intacct

Where Sage Intacct Is Great Fit for GP Customers

Multi everything, multi entity with scale

Integration with line of business applications

Real-time visibility to operations

If using Salesforce

Ideal verticals

Get Current with Modern “Born-in-Cloud” SaaS Solution

- Born in the cloud in 1999 as a true cloud solution, focused exclusively on Finance professionals
- Forget the limitations of Microsoft Dynamics GP. With Sage Intacct, you can change your business processes without the headaches
- Scale up and reduce the cost of compliance with consistent workflows.
- Meet all of your reporting needs regardless of the complexity of ownership structures.
- Employees can be productive from any location, whether they are entering data, accessing information, or approving transactions.
- Auditors, board members, or other remote stakeholders can participate in audits, financial reviews, and approval workflows.
- Right from your smartphone or tablet, you can access the metrics and reports you need – anytime, anywhere.

Visibility into Financials and Operations

- Get a real-time picture of your financial performance – right down to the granular details.
- See your financial information your way, without resorting to other tools or complex charts of accounts.
- Create real-time, self-service stakeholder dashboards and reports for a holistic view of business performance that include financial, operational, and external data without any programming knowledge.

- Get the rich accounting and finance functionality you need from the AICPA's preferred provider.
- Keep working with the other business applications (like Salesforce.com) that meet your needs.
- Skip expensive software bundles that give you additional modules you won't use.
- Enjoy the convenience of “point-and-click” integration with popular applications – no writing and maintaining your own code.

Total Cost of Ownership

- You can reduce the TCO of your financial management system by eliminating hardware costs and reducing software and IT expenses.
- Say goodbye to installing, maintaining, and upgrading your financial management applications - no more dependence on scarce IT resources. With Intacct, you focus on business, not technology.
- Reduce your risk with enterprise-class security, backups, and disaster recovery – all included.
- Flexible pay-as-you-go per-user subscriptions mean you don't see surprises or hidden costs.

RECAP – TOP 10 REASONS TO CONSIDER SAGE INTACCT

1. Dimensions
2. Real-time visibility
3. Multi-entity – intercompany, consolidations
4. API
5. Tailoring & customizing
6. Industry functionality such as NFP, Contracts, Revenue Recognition, Projects, Audit Trail and GAAP Compliance/HIPAA Compliance, Budgeting & Planning
7. “Born in the cloud” – no infrastructure, scalability, access anywhere
8. AICPA – only preferred provider
9. Customer Satisfaction
10. Innovation

CUSTOMER STORY

Overview & Background

- Franchise organization with 100s of locations and entities
- Needed a scalable cloud-based ERP to support and sustain their growing business
- The accounting team needed an ERP that had strong capabilities for multi-entity, intercompany, reporting, and solid core accounting processes
- After seeing several demos of various cloud ERP solutions, Sage Intacct was selected for the software's scalability, built-in multi-entity capabilities, dynamic reporting and simpler third party integrations through the API.

Out with the Old Technology

- Microsoft Dynamics GP
- Management Reporter
- Binary Stream Multi-Entity Management
- Excel reports
- Highly customized integrations with .NET applications and SQL code

In with the Sage Intacct native capabilities:

- GL, AR, AP, Purchasing
- Dashboards
- Financial Reports
- API 1st technology
