Microsoft Options should you stay with GP

We can help you choose the best fit

Cloud sync

Experience intelligent cloud insights if you are on a supported version of Dynamics GP

Option 1

On-premises

Stay where you are.
Simply renew your annual Maintenance

Option 2

Option 1: Cloud sync - Intelligent Cloud Insights

Why Cloud sync?

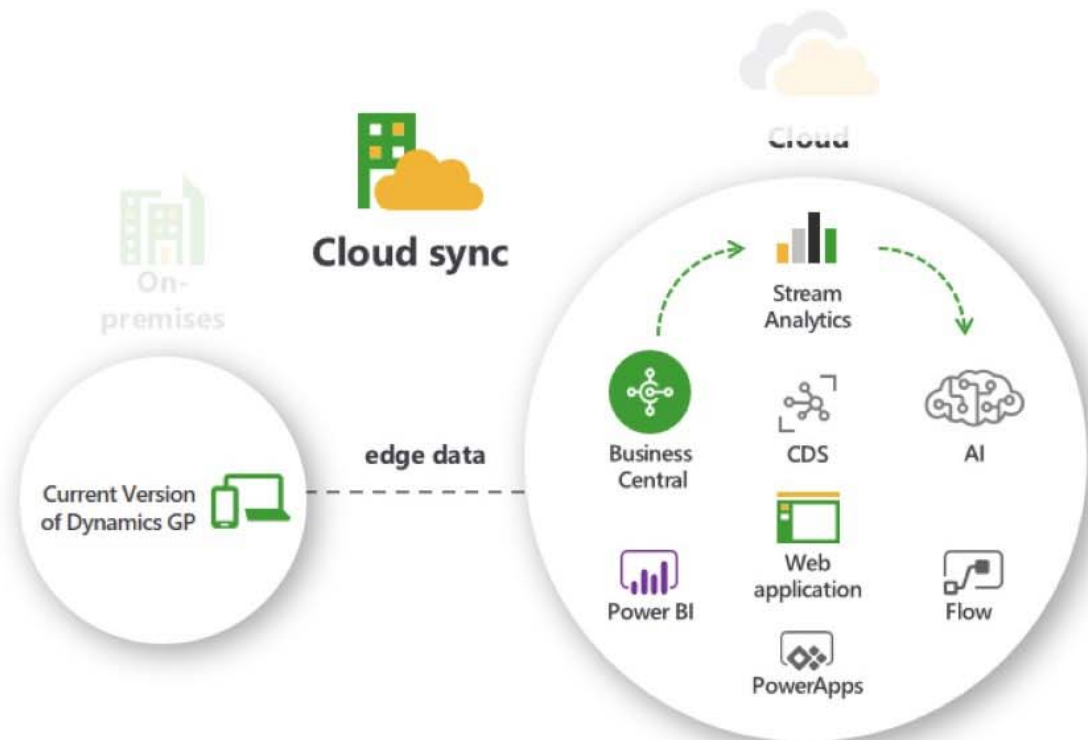

- Receive cloud value while continuing on-premises install. Deployed on-premise or hosted (own data center or Azure).
- Intelligent Cloud License can be reused as a BC License if you are current on Maintenance
- Available for GP2015 to Modern LifeCycle (February)

Cloud benefits

- Get cash flow forecast using cloud insights
- Get out of the box KPI: cash available, sales profitability, net income, inventory value
- Insights to action (overdue invoices-customer/vendor)
- Managed access to confidential data keeps your information secure

Data Integrated

- Chart Of Accounts and Open GL Balances
- Vendors and Open AP
- Customers and Open AR
- Inventory and Inventory Qty/Balance

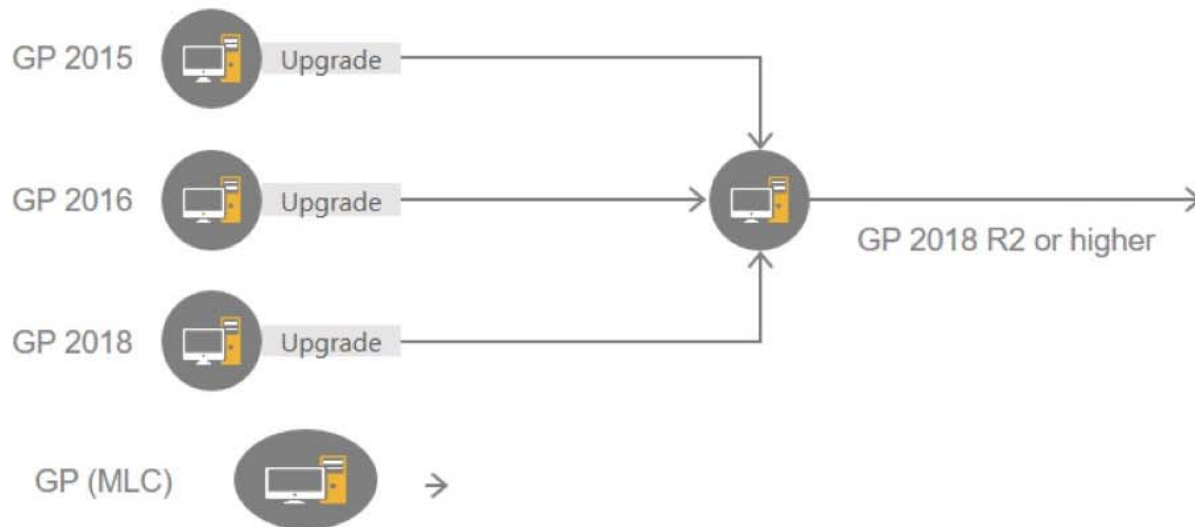

Cloud Sync – Intelligent Cloud Insights (next release)

On-premises

Cloud

STAYING ON GP - CONSIDERATIONS

Dynamics GP Clients

Myths about staying on GP

“Microsoft won’t support me anymore.”

Microsoft is planning for current users of GP to get ready for transition through 2028

“RSM won’t support me anymore.”

RSM is committed to supporting our clients on whatever version of GP you are on, and can help with support, training, new projects and upgrades

Reasons you may need to stay on Dynamics GP

Modules

- Manufacturing
- Payroll and HR
- Project Accounting
- Customizations and integrations with existing systems

Budget considerations

- Cost of a new ERP solution
- Management and User readiness

Current ISV Solutions

- Some of your ISV's are not yet ready for cloud, or don't have plans to migrate to the cloud
- You've heavily invested in ISV solutions and the functionality doesn't exist in a new ERP solution.

Reasons you may need to stay on Dynamics GP (cont.)

Your organization is not ready for the Cloud

- Migrations to Office365
- SQL Server version
- Hardware and infrastructure considerations
- Regulatory issues and requirements

Company considerations

- Major event planning
- Corporate stability
- Mergers & acquisitions
- Other systems associated with GP

Features to enhance your GP experience

Dynamics GP includes many modules that you own that can enhance your GP system:

- Workflow
- Fixed Assets
- Reporting Libraries
- Intercompany, Revenue/Expense deferrals

And others you can add on:

- Human Resources
- Collections Management
- Integration tools

STAYING ON GP- LET RSM HELP

Dynamics GP Clients

The RSM Dynamics GP Team

Dedicated Managed Application Support (Help Desk)

- Onshore response team 24/7
- 5+ Dynamics GP Professionals 8am – 8pm ET M-F

Application Consultants

- 40+ Consultants Nationally that help implement, support and enhance Dynamics GP
- Dedicated Lead Consultant

Technical Consultants

- 5+ Consultants that will deploy your Dynamics GP Upgrade and Service packs
- Troubleshoot performance issues
- Assist with Integrations and SSRS Report writing

Application Development Consultants

- 5+ Developers to assist with Integrations and SSRS Report Writing
- Extend the functionality of your Dynamics GP through Custom applications
- Dexterity Certified Programmers

Managed Application Support

Our Managed Application Support help desk is staffed with Microsoft Certified accounting professionals dedicated to rapidly tracking, escalating and solving your organization's Dynamics incidents and questions. In addition, RSM has a strong business knowledge of third-party products that can be integrated with Dynamics. With Managed Application Support, you can boost organizational productivity, control and manage your IT strategy and maximize your return on your ERP investment.

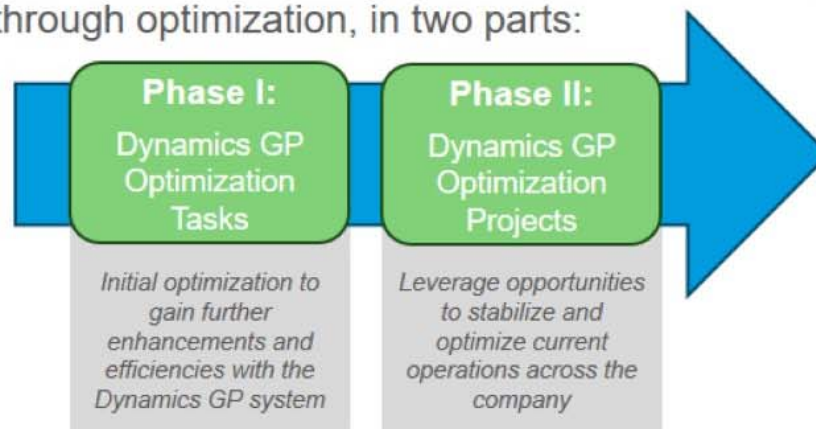

- Local primary consultant/team involvement (Level 2 and On-site support)
- Dedicated Managed Application Support Center (Help Desk)
- Monthly webinars and quarterly usage reports
- User group meetings
- Annual Performance Assessment (included in Tier III)

Optimization Assessment

During the on-site assessment, the RSM team will review the following:

- Current functionality and features (up to and including the most recent release)
- Features and modules of GP you may own but are not currently leveraging (e.g. fixed assets, intercompany transactions, electronic banking to name just a few)
- Current pain points for end users
- Discussion of the benefits of upgrading your GP system
- Training opportunities
- Reporting opportunities

Based on the results of this assessment, we will provide feedback on how to best gain immediate value through optimization, in two parts:

Optimization Assessment

Recommendations & Roadmap *Phase II: Finance & Technology Optimization*

As part of the proposed second phase, RSM has identified the following recommendations for XXXXX to enable the company to stabilize operations and build the foundation for future growth.

Ref.	Recommendation	Description	Priority
1	Chart of Accounts Redesign	<ul style="list-style-type: none">Finalize Chart of Accounts ("COA") redesign per the initial spreadsheet model; build out design to drive reporting by base, LOB, division and other desired criteriaEnsure COA is designed along with the capabilities of capturing the appropriate data in ZOLLLeverage GP mass modify feature to generate all combination strings based on future state structural chart design	High
2	Conduct GP "Health Check"	<ul style="list-style-type: none">Work with provider to run a GP database "health check" run on GP tables to ensure no major issues or errors with backend (there is a tool that can be used to run the health check)	High
3	ZOLL Integration	<ul style="list-style-type: none">Develop ZOLL integration through working with ZOLL Custom Solutions Group and also using appropriate GP integration toolEnsure that COA design is in place prior to building the integration	High
4	Requisition Management	<ul style="list-style-type: none">Evaluate <u>ReQlogic</u> as a requisition and expense management tool; implement a well-defined purchasing process utilizing the tool that supports workflow automationLeverage the same tool for expense management	High
5	Encumbrance Management	<ul style="list-style-type: none">Consider implementing GP's native encumbrance management tool to allow purchasers/<u>requisitioners</u> to check budget, including both actuals and commitments prior to submitting a purchase request or purchase order.	Medium

Optimization Assessment

Recommendations & Roadmap Così Roadmap Fiscal Year 2017 - 2018

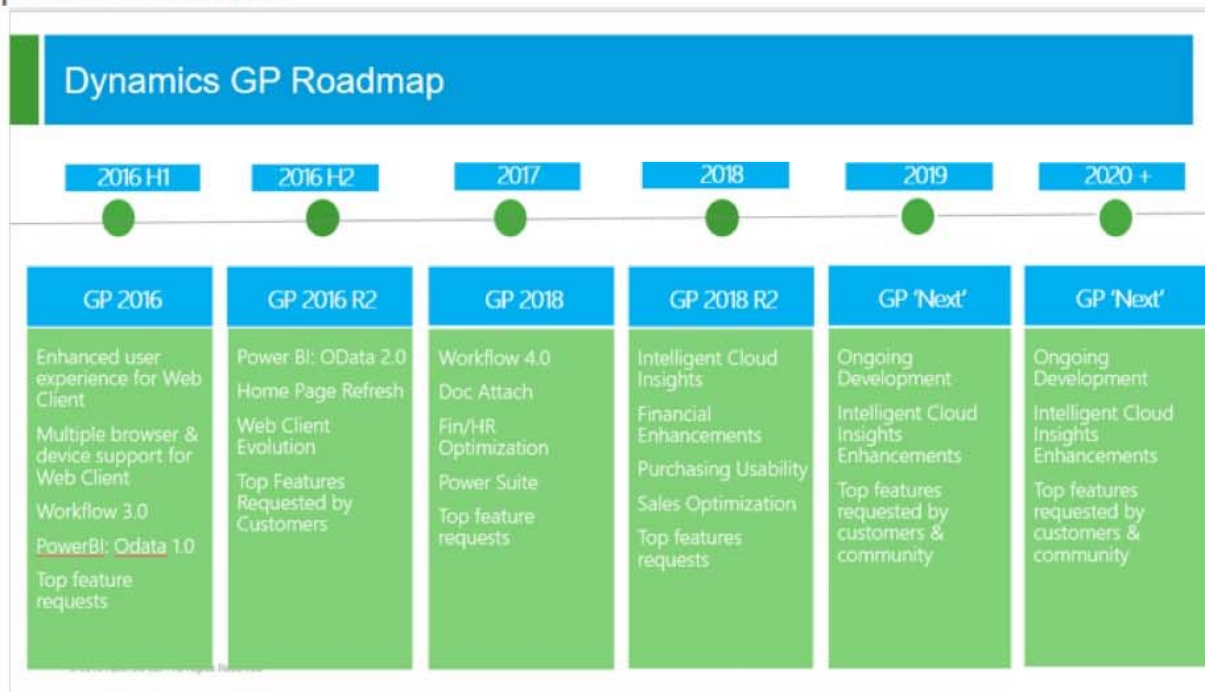

Objective	FY 2017	FYI 2018		FY 2019	
Phase I: Dynamics GP Optimization <i>Initial optimization to gain further enhancements and efficiencies with <u>Cataldo's GP system</u></i>					
Phase II: Finance & Technology Optimization <i>Leverage opportunities to stabilize and optimize current operations across the company</i>	 	 	  	  	

Example Optimization Review

- Optimization Review focused on.....
 - Review of all integrations
 - Review of Project Accounting
 - Review of Payroll/Billing process
 - Review Payroll routines
 - Migrating new company into Dynamics GP

Upgrades and Updates

Periodic updates of the software will be provided through Microsoft's Enhancement plan. The updates incorporate new features and major enhancements to the application. Unique requests and specialized plans will be considered by RSM and the software vendor to provide you with a service and support plan that is tailored to suit your specific concerns.

Microsoft Dynamics Release Themes

Bringing two worlds together	Enhancing the core application and platform			One Microsoft

GL Account WF Approval	Change Dep Code in Payroll	Autocomplete in Web Client	Added in Employee Inquiry	Create FLOW templates for GP
Additional fields to WF email messages	AA – copy user access across dimensions	VS Tools for Web Client	Display Notes in Vendor / Customer Inquiry	+ more
+ more	Copy Project PO	+ more	Added in I-9 form	
	+ more		+ more	

Managed Services Overview

- RSM provides a comprehensive managed services framework with strategic advisors and experienced technology professionals, providing peace of mind at a predictable cost.
- Our teams can provide managed services for infrastructure, managed services for Office 365, and managed application services and support

Managed Services- Cloud (Hosting)

RSM's Private Cloud - offers superior **security, control, and performance** on our own environment

Microsoft Azure – RSM is a leading provider of private and public cloud solutions and services in Azure

Managed Services & Support for Microsoft Dynamics GP

Tier I

- Access to live onshore response team 24/7
- Dynamics GP Help Desk 8am – 8pm ET M-F
- Access to experienced Microsoft Dynamics Professionals
- Support provided on an hourly basis

Tier II

- Unlimited technical support incidents (Fixed Fee)
- Dedicated Account Management

Tier III

- Annual Dynamics Rapid Assessment
- Biennial upgrade of Dynamics GP (every 2 years)
- System monitoring and alerts for Dynamics GP

Training

RSM offers customized training. We will work with you to determine the appropriate training plan. Our goal is to educate your staff to the point where they are independently capable of operating the system on a daily basis. Training for staff in remote locations can be accommodated by on-site training, training in a RSM training facility or via an internet connection (web meeting) for simple training needs.

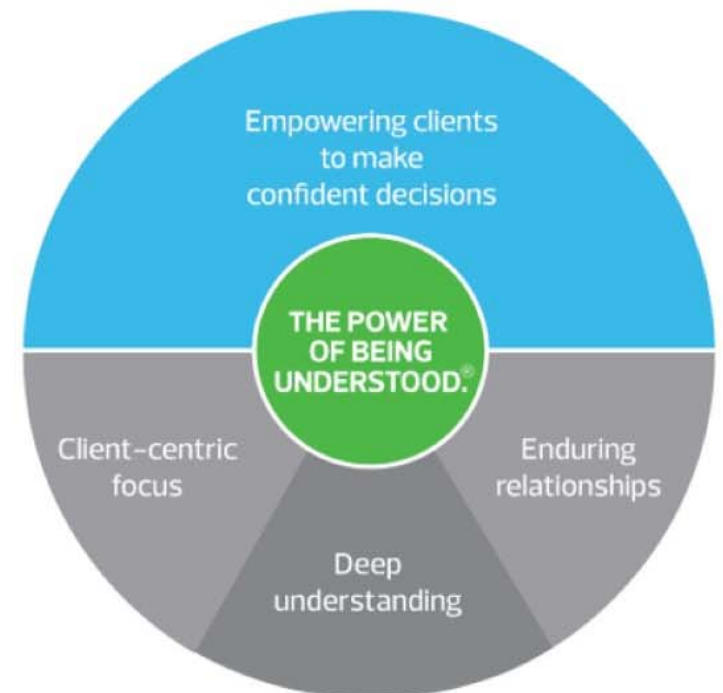

Training Topics include:

- New User
- Tips and Tricks
- New Version Features
- Process Best Practices (Procure to Pay, Order to Cash, COA design)
- Administrator/Analyst Training

The power of being understood.®
